

Social post

Hello everybody,

My name is Lieke and I am a professional baker from the Netherlands. I have been baking and decorating cakes for upper class families for 10 years now and enjoy it tremendously. I believe that with my ambition I can grow my business and gain your trust. Some of my cakes are listed above. Would you be so kind to reach me, if one of my cakes interests you. My way of working is always personal, I will have a short consult with the client to find out the likes and dislikes. After this I will start producing the cake. Throughout all of the production process I will keep close contact with the client to be on the same line constantly. If you are interested in one of my creations, please feel free to reach me through my social network or website.
